

## **PASE BULLETIN No. 2 - TRAVEL**

There is only one commercial flight into Christmas Island. Fiji's National Airline, **Air Pacific**, operates a once-weekly Boeing 737-700 aircraft from Nadi to Christmas Island, and then Honolulu, returning by the same route. The service is a joint venture between the Kiribati Government and Air Pacific to provide essential transport and communications for residents of Christmas Island, along with visitors and tourists.

*Airport Terminal on Christmas Island*

Coming from the US, the aircraft departs Honolulu at noon each Tuesday and arrives back in Honolulu on the following Tuesday at 10:30 am. It is important to note that Christmas Island operates on the same time as Honolulu, but because it is past the international dateline, the plane arrives on Wednesday on Christmas Island at 3 pm and departs the following week on Wednesday to Honolulu at 7:30 am.

Travel/flight arrangements can be made through
